

PUBLIC DAILY LEDGER

SIXTH YEAR.

MAYSVILLE, KY., THURSDAY, JULY 22, 1897.

ONE CENT.

SPRING CIRCULATION
LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising notices free any more than a merchant can afford to give his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

The Continued Calls

upon THE LEDGER for free notices have become so burdensome that we are forced to publish the following terms:

For Notices of Shoppers.

Advertisements, fairs, or other public entertainments where a fee is charged, and for delivery notices, read as follows: 10c per line for the first insertion, 5c for each subsequent insertion. A customer orders a five-line local notice in the paper. "I'll tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—\$10.00—the bill is \$10.00. When he finds it out there is a "kick" and a controversy, followed probably by an icy telling. Now, to obviate this trouble, we "tell" our notices will be accepted hereafter. Let's have a definite agreement at the outset and the termination will be pleasant all around.

Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for Business Local in THE LEDGER is 10c a line for the first insertion and 5c a line for each subsequent insertion. A customer orders a five-line local notice in the paper. "I'll tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—\$10.00—the bill is \$10.00. When he finds it out there is a "kick" and a controversy, followed probably by an icy telling. Now, to obviate this trouble, we "tell" our notices will be accepted hereafter. Let's have a definite agreement at the outset and the termination will be pleasant all around.

☞ All matter for publication must be handed in before 9 o'clock in the morning of each day.

☞ If you have an item of news, please call up THE LEDGER, Telephone 33, and send it in.

We Must Make Room

In anticipation of a big fall trade and realizing that goods pertaining to our lines will advance, (a great many have already) we bought early and largely. We are already beginning to receive shipments. Moreover it will not be long before our great line of Men's Shoes will come in, so you see we must make room. Now, if you will look in our window and see the line of suits we are offering at \$10 you will assist us in making room. All of our Fancy Cheviot Suits, in Cheeks, Plaids, Stripes, etc. Suits that we sold at \$15, \$16.50 and \$18, go in this sale.

No business in the state ever did or ever will offer a line of Suits like these for the price,

--- \$10.00!

It is the greatest sacrifice sale we ever made, but as our patrons will be benefited, and it secures us room and money, we will only be too glad to have you take advantage of this sale. We have no room to quote prices on our more medium grades, but the entire stock will be sold at proportionate prices.

Please bear in mind this: No Suit will be sent out on approval. No Suit will be charged. Only

--- CASH!

Will buy the goods during this sale. Money, however, will be cheerfully returned if goods don't suit upon home examination.

In another place is the announcement of Mr. Albert N. Huff as a candidate for Chief of Police of the city of Maysville. For five years Mr. Huff has held the office of City Assessor, and it is needless to say that the city has had no better officer. He is in every way qualified for the office he now seeks, has a knowledge of the duties of Chief, and the support of the voters of the city will be highly appreciated.

The Editor of THE LEDGER finds it impossible to write of local occurrences when he is 300 miles from home. He was that far away when Jimmy Hason cut Charlie Fox, and he never heard of the affair until it appeared in print. However, he takes pleasure in stating that the Reporter who wrote the item was in error when he stated that Fox had served a term in the Penitentiary. Charlie has never been there.

CAUGHT AT LAST.

The Fellow Who Has Been Giving the Streetcar Company Trouble.

For some time past the Street Railway Company has been seriously annoyed by having the "bond wires" removed from the tracks near the Cemetery.

Suspicion rested on a fellow named Cummings, who resides in that locality, and yesterday afternoon Constable Purcell landed him.

His trial was set for this morning before "Squire Howe."

TROUBLE SETTLED.

S. B. Wadsworth Taken to Washington City, Where He Arranges Matters.

Yesterday's LEDGER made mention of the fact that Mr. S. B. Wadsworth of this city had been arrested for obtaining \$40 from a party in Washington City on a bogus draft.

Mr. Wadsworth was taken to Washington, and yesterday he telegraphed Judge Wadsworth that the matter had been satisfactorily adjusted by the payment of \$80.

Yesterday's game at Knoxville was the first of a series to be played there this week by the club organized by Henry Wadsworth and taken on a Southern tour, and it was a good game, showing that there has been no mistake made in the make-up of the club, and that the reputation of our baseball club will be fully upheld by Manager Wadsworth's team.

AN EXPLOSION

In the Cartridge Factory of the Winchester Arms Co.

Four Women and Two Men Were Killed Instantly.

Five Others Taken to the Hospital Badly Injured, Where One Died—Forty Feet of the Blast Blown Out.

NEW HAVEN, Ct., July 22.—Four women and two men were killed Wednesday by an explosion in the loading department at the armory of the Winchester Repeating Arms Co. Five others were taken to the hospital badly injured. The dead are: W. F. Bannister, Mrs. Mary Bannister, Miss Josie Brennan, Miss Ida Brown, Wm. Hill and Miss Tracy Cronin. Fatally injured: Geo. Harbord and Edward Harbord.

The explosion occurred in the loading room. Employed in this room were 150 hands, two-thirds of them girls or women. Nearly all of the female hands are employed on loading machines. The full complement of hands were at work in the room when the explosion took place. Forty feet of the side building was blown out and hurled in pieces many feet and fragments of human bodies were scattered about. All available firemen, the fire department, the police, the ambulance and hospital corps were speedily summoned. Harrowing scenes were enacted as the dead were brought to the place.

As rapidly as a victim was seen to be alive the sufferers were taken to the hospital, made as comfortable as possible and conveyed with all possible speed to their homes. Two of the bodies had been decapitated. Others had been partially torn asunder, and still others had been dismembered.

The officials of the company extended every effort to assist in the work of relief.

Perhaps the saddest scene was enacted when John Bannister, but recently married, learned that his wife was among the dead. At the time of the explosion he was at work about a few feet from her. The cause of the explosion has not been determined. It may have been due to a defective machine. Edward Harbord died after being taken to the hospital.

A THOUSAND DOLLARS

To the Pan is Not an Uncommon Thing in the New American Dialect.

SEATTLE, Wash., July 22.—D. W. Shaw, formerly a well-known insurance man of this city, has written a letter to a business man of this city in which he states frankly he does not expect to be believed.

"This is a great mining strike," says Shaw, "probably the greatest on the American continent or in the world. Gold has not been found in any quantities except on two creeks, about 800 claims.

Some of the pay streaks are nearly all gold. One thousand dollars to the pan is not an uncommon thing, and as high as 100 ounces have been taken out in a single pan. It is not unusual to see men coming in with all the gold dust they can carry.

"You would not believe me when I tell you that I went into one cabin and counted five five-gallon cans full of gold dust, but it is true. The men of the work of two men during the winter and the dump is not more than half worked out.

"There has been about \$2,000,000 in dust taken out so far in the district. At a low estimate I believe there will be \$50,000,000 taken out in the next year."

Probable Lynching in Alabama.

FLORENCE, Ala., July 22.—Jim Speaks, the Negro who caused the trouble at Riverton, is probably swinging from a convenient limb between Riverton and Cherokee Wednesday night. Speaks was captured near Riverton Wednesday morning and at 5 o'clock Wednesday night officers started for Tusculum with him. A band of men followed the officers, swearing they would hang the Negro before he could be taken five miles. They undoubtedly carried out their threats.

Fatal Storms in England.

LONDON, July 22.—Various sections of England were deluged Wednesday by thunderstorms. In the northwest part of London floods have occurred, stopping railway traffic, and much damage was done. Two men were killed by lightning at Ipswich. Floods have also occurred in Essex, Birmingham and Warwickshire. A boy was killed by lightning at Rhymney, in Monmouthshire, and many persons were injured there and in other places.

A Lynching in Kentucky.

NEW JERSEY, July 22.—About 7:30 Wednesday morning at Baldwin, in St. Mary's parish, a Negro, Jack Davis, alias John Davis, a white boy, was captured near Riverton Wednesday morning and at 5 o'clock Wednesday night officers started for Tusculum with him. A band of men followed the officers, swearing they would hang the Negro before he could be taken five miles. They undoubtedly carried out their threats.

A Brother Committing Suicide.

SPRINGFIELD, July 22.—G. T. Johnson, a broker of Athens, Ga., committed suicide here Wednesday night by shooting himself in the head. No cause is assigned. He left several checks drawn to his wife, the total amounting to about \$700.

From the North Pole.

CHICAGO, July 22.—A telegram from St. Lawrence states that a carrier pigeon has been caught in the neighborhood of St. Lawrence, flying a silver ring upon one of its feet and the following stamped upon its wings: "North pole 142 W. 42.62."

Deaths of a Family.

LONDON, July 22.—The Duchess of Hamilton was quietly married Tuesday morning at Leicester to Mr. Peter. Little is known of the bride. It is stated that the duke of Devonshire was present.

PEEK-A-BOO.

The Boone Miners Work When No Strikers are in Sight.

Trouble is Expected at the Allison Mine Near Canonsburg, Pa.

The Miners Fear Another Invasion of Strikers, and are Afraid to Go to Work—The Sheriff is Fully Prepared for the Marching Miners.

PITTSBURGH, Pa., July 22.—Trouble and much of it seems to be in store at the Allison mine, three miles west of Canonsburg. The men want to go to work but are afraid. They fear an other invasion of the strikers and do not want to be targeted for a mob that is liable at any moment to lose control of itself. Wednesday night everything was quiet about the mines and the citizens of Canonsburg was awaiting the arrival of the invaders. It was the intention of the strikers to begin their march to Canonsburg Wednesday night but a telegram from Bridgeville announces that owing to the heavy rains of Wednesday evening, it was decided to postpone the tramp until Thursday. The men are fully determined to carry out their threat of making the march. They start with 100 men and are reinforced with about the same number from Bridgeville and Tom's Run. The men will start on Thursday, and will be in shape to watch the offending mines for several days. Wednesday morning a number of the men gathered to the Allison mine were stopped by the committee of strikers. Many of them did not go to work. J. H. Cook, of the Allison mine, said the strikers would be provoked, and they would all be arrested for intimidating his employees.

Since Vernon Clark, of Washington county, is fully prepared for any march of strikers that may invade the Allison mine, it is not probable that at 4 o'clock Tuesday night he had nearly 300 deputies sworn in, who are available any time. From the most reliable information it was learned that they are all ready, with the requisite number of firearms, and are prepared to meet any invasion of the Allison mine.

The sheriff is on the ground in person, and if there is a false movement made on the part of any of the strikers, drastic measures will be resorted to.

The miners who want to go to work are stricken with fear, and anticipate trouble. The Allison mine had 40 men at work until noon Wednesday, when the plant was shut down, in apparent anticipation of trouble. During Wednesday afternoon a committee from the Enterprise mine, three miles from Allison, paid them a visit. The committee wanted to find out what the status of the situation was. They decided that the Enterprise mine was not working under the present surroundings.

At the Boone mine, a game of peek-a-boo is in progress. The men want to go to work as there are no strikers in sight. Manager Hitehman, of the mine, said that he would not attempt to operate the plant as long as the strike was in indication of trouble. He said he was prepared for any emergency, and intimated that the trouble might blow over in a few days.

At a committee meeting at the mine headquarters in this city Wednesday afternoon, the question of the strike was discussed. It was decided that a body of men to stop the miners of the New York & Cleveland Gas Coal Co. from working. Every man of the subject was discussed, but no plan could be hit upon. It was the general opinion that the miners of this company are impregnable to attack because of their geographical position. The expected meeting of the Allison mine did not take place Wednesday night, the western members not arriving in the city. As soon as they arrive arrangements will be made for a general meeting of operators.

The situation among the strikers in this district is practically unaltered. The suspension is complete with the exception of Deamriss's mines, and, though considerable destitution and suffering is reported among the strikers and their families, the determination to fight it out is apparently strong as on the first day of the strike.

Favorable to the Workmen.

PITTSBURGH, Pa., July 22.—The finish scale of the Amalgamated association has been signed by Jones & Laughlin and work will be resumed at once. The scale is signed as a compromise, but is said to be favorable to the workmen. The firm of Jones & Laughlin is the first to sign the finishing scale in the country, and it is thought that other firms will soon fall in line. The scale has now been signed for all departments on the extensive plant at Jones & Laughlin, and the entire works will be in operation in a few days, giving employment to 3,500 men.

Amers and O'Connell Miners.

FARMINGTON, N.Y., July 22.—The Amers and O'Connell miners organized a union, with 5 members. The women of Monongahela, who are the strikers, with a flag which was carried on the march to Hutchinson Wednesday afternoon, are 400 miners, with their families and children, were in the ranks. At Farmington, 20 men joined the strikers.

Humanitarian Considerations.

BALTIMORE, July 22.—The excavating of a new foundation for the roof of 40 West Pratt street, a laborer unearthed a human skeleton, which circumstances indicate to be all that is left to tell the story of a crime committed many years ago. The skull was found in the third place, and the bones of the feet were still encased in hipshot boots.
